#### Profile Summary

- I am a skilled and experienced web developer proficient in both front-end and back-end development. I have a passion for creating visually appealing and user-friendly websites and web applications.
- Good experience in developing application using ReactJS, NextJS, AngularJS, NodeJS, ExpressJS, JAVA, Python with Restful services and **MicroServices**
- Experience in developing front-end user interface using HTML, CSS, JavaScript, ReactJS, AngularJS, NextJS, ViteJS.
- Hands-on experience on MySQL, MSSQL, PostgreSQL, MongoDB, Firebase
- Having good work experience in developing **RestAPI** and MicroServices based applications
- Excellent analytical and programming abilities in using technology to create **flexible** and maintainable solutions for complex development problem.
- Experience in dealing with On-shore and Off-shore
- Hands on experience in GitHub and GitHub Action
- Having good experience in using JIRA tool for project management

### Work Experience

### 04/2022 - PRESENT BENGALURU, INDIA **Software Development Engineer**

#### **IDC Technologies**

- Developed and maintain robust web applications using ReactJS, AngularJS, NodeJS, Python, Java, PHP and NOSQL databases.
- Mentor and support freshers, resolving doubts and facilitating their growth within projects.
- Optimize application performance through efficient code architecture and implementation of best
- Collaborate with cross-functional teams to deliver high-quality solutions aligned with business objectives.
- Stay updated with emerging technologies ensuring the integration of innovative tools and frameworks.
- Successfully deliver projects within agreed timelines, exceeding client expectations.
- Received recognition for problem-solving skills and contributions to project success.

#### **≜** Work Experience

#### 11/2020 - 12/2021 DELHI NCR, INDIA **Associate Software Developer SDLC Corp**

- Developer and leader in a high performing team, overseeing the successful completion of 2 projects.
- Efficiently manage project details by gathering requirements from clients and effectively communicating information to team members.
- Play a pivotal role in project planning. Coordinating tasks, and ensuring timely delivery of quality software solutions.
- Utilize expertise in software development technologies to drive innovation and enhance project outcomes.
- Proactively identify and address project risks, ensuring smooth execution and client satisfaction.

02/2022 - 03/2022 PUNE, INDIA

#### **Software Engineer OMFYS Technologies**

 Developed and implemented scalable software solutions using Java and Python, resulting in a 20% increase in system efficiency.

### **Projects**

#### **Sodigsa E-Wallet**

#### **Role & Responsibility:**

- Leading a team of three individuals in the development of an admin panel.
- Designing, implementing, and maintaining the admin panel, ensuring its functionality and user-friendliness.
- Creating 8 to 9 robust APIs to facilitate seamless communication with external systems.
- Prioritizing reliability, security, and scalability while developing the APIs.
- Analyzing and optimizing app performance, identifying and resolving bottlenecks.
- Achieving noticeable improvements in app responsiveness, speed, and efficiency through optimization techniques

**Description :**This E-Wallet project offers a secure and efficient platform for users to register, send, and receive money digitally. The registration process includes document verification to ensure the authenticity of user identities. Additionally, we provide an admin panel for efficient user verification and record tracking.

Environment: ReactJS, NodeJS, Android, IOS, Firebase

#### **Kisan Manch**

#### **Roles & Responsibility:**

- Leading a team to develop a user-friendly admin panel, ensuring timely delivery.
- Designing robust APIs for seamless integration.
- Prioritizing reliability, security, and performance.
   Creating tailored ecommerce pages for farmers.
- Designing intuitive interfaces, optimizing user experience.
- Collaborating with stakeholders for requirements alignment.
- Conducting comprehensive testing for a seamless user experience.

**Description:** Kisan Manch is an innovative online agricultural marketplace connecting farmers and consumers. Our platform enables users to easily place orders, receive products directly from farmers, and track their deliveries. With a user-friendly interface and a robust admin portal, customers can browse a wide range of agricultural products and place orders with convenience. Farmers can showcase their products, communicate with customers, and efficiently manage their sales.

**Environment:** ReactJS, NodeJS, MongoDB, Android, IOS

#### **Craft Silicon**

#### **Roles & Responsibility:**

- This is a technology company that provides software solutions for
- the banking and financial services industry.
- They offer range of product, including core banking system, mobile banking platforms, and loan management system
- Implemented features of software using AngularJs, NodeJS, PostgreSQL and Bootstrap

Environment: AngularJS, NodeJS, PostgreSQL

#### **Top Loan**

#### **Roles & Responsibility:**

- Led the development of Canada's Largest Mortgage Agent Network, enabling users to apply for loans and calculate mortgage value based on income and cibil score.
- Collaborated with cross-functional teams to ensure seamless user experience and timely project delivery.

Environment: ReactJS, NodeJS, MySQL

#### **Tutorbig**

#### **Roles & Responsibility:**

- Developed an intuitive online education platform for tutors and learners.
- Enabled easy content uploads (videos,PDFs) by tutors, enhancing student learning.
- Utilized ReactJS, NodeJS and Firebase for scalability and performance.
- Achieved successful launch with positive user

#### **Projects**

feedback

**Environment:** ReactJS, NodeJS, Firebase

#### Skills

#### - FRONT END TECHNOLOGIES

HTML
CSS
JavaScript
ReactJS
AngularJS
TypeScript

#### - BACK END TECHNOLOGIES

NodeJS
ExpressJS
JAVA
Python
Spring Boot
Hibernate

#### - DATABASE MANAGEMENT

MySQL
PostgreSQL
MongoDB
Firebase

#### - VERSION CONTROL

Git

### Education

06/2014 - 03/2017 AURANGABAD, INDIA
Electronics & Communication | BE
Marathwada Institute of Technologies

06/2011 - 03/2014 AURANGABAD, INDIA

## Electronics & TeleCommunication | Diploma

**Marathwada Institute of Technologies** 

#### Achievements

- Coordinated many events in Tech Fest in my college.
- Organized and conducted many coding QUIZ programs in TECH FESTIVALS in Marathwada Institute of Technology.
- Participated and stood first in many Chess, Cricket, Yoga competitions

### **★** Strengths

Good Team Player Communicative

Positive Thinking Confident Open minded

### Hobbies

Playing Cricket

Bike Ride

Reading Books
